****Any special needs or diet restrictions? If so, please provide details:

Objectives of Landscape Design School

- Develop a greater sense of appreciation, pride, and knowledge about our private, public and historical gardens.
- Become better informed in order to promote positive changes in our surroundings to encourage beauty, utility, convenience, sound ecological practice, and ease of maintenance.
- Encourage a better understanding of the landscape design process to promote landscapes that will sustain sound management
- Stimulate interest in all phases of landscape design, including community planning
- Develop a contingent of qualified Landscape Design Consultants to serve in such decision-making areas of public life as providing leadership, educational programs, scholarships, awards, and promoting better landscape design.

Landscape Design Schools are open to everyone whether or not they are garden club members.

Examinations

Exams consist of five questions per class hour except for the supplemental subject, which is not tested. Exams will be conducted at the end of each day and on the morning of the third day; you may choose when to take the exam(s). Please see the class schedule for specific times and days.
