

“Beautiful Native Plants Year-Round” – a live ZOOM Presentation
by Leah Brooks, Mt. Cuba Center
Celebrate National Garden Week
Tuesday, June 7th 10:00 am

Why Native Plants? Native plants are specially adapted to local growing conditions are generally less resource intensive than non-native plants. Native trees, grasses, and wildflowers also support healthy ecosystems by providing homes and food for wildlife. By planting natives everyone can make significant contributions to the mission of conserving our natural habitats for generations to come.

Why Mt. Cuba? Mt. Cuba Center, located in Hockessin, Delaware is a beautiful botanic garden committed to the conservation of native plants and their habitats. Our speaker, Leah Brooks will introduce you to several you may want to add to your garden or containers.

Leah Brooks is Mt. Cuba Center’s Public Programs Assistant. She is a University of Delaware graduate with dual bachelor’s degrees in Environmental Science and Wildlife Ecology. Her passion is sharing the joy of nature and native gardening with others.

Time: 10:00 am, Tuesday, June 7, 2023 – registrants can watch live and will also receive a recording in the event they want to view it at a different time.
