Ecological Landscaping for a Climate Resistant Watershed

Stacy Small-Lorenz, Specialist for Residential Landscape, UMD Extension

Learn about Maryland's climate forecast and delve into practical steps we can take as individuals and neighborhoods to become better stewards of the land, water, and atmosphere, in a shared quest for climate-resilient, sustainable landscapes that support native biodiversity and enhance our human connection to nature.

10:00 AM - 11:00 AM

Beauty, Biodiversity and Resilience

Lisa Kuder, Native Plants & Landscape Specialist, UMD Extension

Explore naturalistic design and how to select native plants that can tolerate deer pressure, as well as a range of environmental conditions such as drought, flooding, and salt intrusion. Try your hand at applying what you've learned in a group garden design project.

11:10 AM - 12:00 PM

Protecting Pollinators and Beneficial Insects Amid Climate Change

Madeline Potter, Specialist for Entomology & IPM, UMD Extension

Connect the dots between Climate Change, native plants, pollinators, and beneficial insects while hearing actionable advice for gardeners. From habitat creation to learning about fascinating insect-plant relationships, discover how your greenspace can become a refuge for biodiversity.
