

District I – Federated Garden Clubs of Maryland, Inc.
Semi-Annual Meeting – October 2, 2024

Featured Presenter: Pamela Crockett
“ART BLOOMS IN DISTRICT I”

Pamela Crockett is best known for her large-scale oil paintings of small, natural decaying objects in active environments. In them, she imbues inanimate objects with life, and her attention to texture invites the viewer for a closer look at nature from an ever-changing crowning of the entire cycle of the year. The fleeting quality of the seasons and the fleeting nature of life on earth are captured in Pamela’s pieces.

A former fellow in residence at the Virginia Center for the Creative Arts and recipient of the Olssen Faculty Incentive Award, Pamela has been teaching art and painting since receiving her Master of Fine Arts and Master of Arts degrees from the University of Iowa in 1991. Teaching positions include Mt. St. Mary’s College, Loyola University, Notre Dame of Maryland University, McDaniel College, St. Timothy’s School, and the University of Iowa.

Four District I Designers have been assigned the task of creating floral designs inspired by specific pieces of Pamela Crockett’s works. These dauntless designers will share their floral design inspirations and methods.

All Floral Designs will be raffled off to lucky attendees!
