## Objectives of Landscape Design School

- Develop a greater sense of appreciation, pride, and knowledge about our private, public and historical gardens.
- Become better informed in order to promote positive changes in our surroundings to encourage beauty, utility, convenience, sound ecological practice, and ease of maintenance.
- Encourage a better understanding of the landscape design process to promote landscapes that will sustain sound management
- Stimulate interest in all phases of landscape design, including community planning
- Develop a contingent of qualified Landscape Design Consultants to serve in such decision-making areas of public life as providing leadership, educational programs, scholarships, awards, and promoting better landscape design.
